MEMORANDUM

INTERMOUNTAIN POWER SERVICE CORPORATION

TO: S. Gale Chapman
FROM: Dennis K. Killian
DATE: August 27, 1991
SUBJECT: Burner Flame Stabilizers Purchase
FILE: 01.03.03, 14.9010

PAGE 1 OF 2

Please approve the attached purchase requisition for RJM Corporation to proceed with the fabrication of the burner flame stabilizers. ^{The IPSC} This fabrication is for installation on Unit 2 in the Fall 1991 Outage, scheduled to begin October 28, 1991. ^{2,500} Total estimated cost of the flame stabilizers is \$1,800 per burner for a total cost for 48 burners of \$86,400. ^{bdd}

Due to IPSC's concerns with B&W's proposed burner design upgrade not addressing all of the burner and combustion deficiencies, IPSC is recommending the addition of the flame stabilizer to B&W's existing burner to address and correct these problems.

^{of the installation} The goal is to keep B&W's burner design intact to mitigate warranty and guarantee issues while attempting to resolve these outstanding burner issues.

The burner flame stabilizer contract will consist of the following:

1. MZ Flame Stabilizers \$86,400
a. 48 flame stabilizers @ \$1800 per burner

2. Engineering and design costs (one time charge) of \$7,200 is included in the Burner Design Evaluation Package.

3. ^{Design} IPSC will be responsible for the arrangement of the installation of flame stabilizers. ^{2,500} RJM to provide technical support on the installation.

Please reference the attached purchase requisition, flame stabilizer specification, plus RJM's Proposal #910614 dated June 17, 1991 addressed to IPSC, and Proposal # 910614 dated August 2, 1991 addressed to LADWP.
